

Citizen's Guide to TRANSPORTATION FUNDING IN MISSOURI

www.modot.org/guidetotransportation

The citizens of the state of Missouri own a tremendous asset – the state transportation system.

Built by our parents and grandparents and funded by \$64 billion in user fees, Missouri's transportation system is the nation's seventh largest state highway system. It is counted on to safely and reliably connect people with jobs and services, businesses with suppliers and customers, students with schools and visitors with destinations.

HOW MUCH DO CURRENT ROADWAY CONDITIONS COST MISSOURIANS?

Missourians pay a relatively small amount per month to use the state system of roads and bridges. The average Missouri driver pays about \$37 per month in state and federal transportation taxes and fees. That's far less than what the average Missourian pays for cell phone service, cable television or internet service.

But there are also hidden transportation costs that Missourians may not realize they are absorbing when they sit on congested highways, drive on rough roads or experience vehicle crashes.

MISSOURI TRANSPORTATION FUNDING

In 2025, 51% of total revenue came from state user fees, 37% from federal revenue and 12% came from Missouri's General Revenue Fund, which receives revenue from the state income tax and the state's general sales tax.

The revenue is distributed into five "buckets" for various transportation purposes as determined by state law. Each bucket has a unique blend of state and federal revenue.

HIGH-PRIORITY UNFUNDED ANNUAL TRANSPORTATION NEEDS

Input from Missourians resulted in five goals for the state's transportation system over the next 20 years:

1. Take care of the transportation system and services we enjoy today.
2. Keep all travelers safe – no matter the mode of transportation.
3. Invest in projects that spur economic growth and create jobs.
4. Give Missourians better transportation choices.
5. Improve reliability and reduce congestion on Missouri's transportation system.
